This course is designed for anybody that wants to work with images for websites and web applications.

Duration: 2 days

Class size: 10 students max

Times: 9:00am - 5:00pm

Price: Refer to our website for current course and package pricing

After the course?

Each student will receive:

- Certificate of completion
- Training manual
- 12 months FREE email support
- FREE class re-sit (if necessary)

Why Fireworks?

Learn how to accelerate web design and development with Fireworks CS6 software, the ideal tool for creating and optimizing images for the web and rapidly prototyping websites and web applications.

About The Course

On this 2-day course participants learn how to use tools in Adobe Fireworks CS6 to create and edit web graphics with both vector and bitmap images, work with layers, build buttons, add rollovers, slice images, and optimize and export graphics. This course introduces basic Adobe Fireworks CS6 integration with Adobe Dreamweaver and Adobe Flash.
