

Premiere Essentials

Adobe Premiere

About the Course

Learn to create professional video content with the powerful, flexible editing tools in Adobe Premiere. This two-day course provides a structured introduction to the essential workflows for confidently importing, editing, enhancing, and exporting video for broadcast and online platforms, including YouTube.

Duration: 2 days

Class size: 10 students max

Times: 9:00am - 5:00pm

Price: Refer to our website for current course and package pricing

After the course?

Each student will receive:

- Certificate of completion
- Training manual
- 12 months FREE email support
- FREE class re-sit (if necessary)

By the end of this course, participants will be able to:

- Understand the core features and workflow of Adobe Premiere CC
- Create and manage projects, and import a range of media formats
- Edit and structure footage effectively within a sequence timeline
- Add titles, graphics, logos, and captions
- Perform colour correction and apply creative grading techniques
- Optimise and enhance audio, including music and voice-over
- Leverage AI features in Adobe Premiere
- Export projects for broadcast and web delivery

Who Should Do This Course?

This introductory course is suitable for participants with little or no prior experience in Adobe Premiere. It is also valuable for users with some existing knowledge who wish to strengthen their workflow, refine editing techniques, and expand their skill set beyond the fundamentals.

Prerequisites

While there are no prerequisites for this Adobe Premiere course; students are expected to have basic computer skills.
